

PLANTATION AND SURVEY (PLANT SURVEY AND PLANTS SURVEY AND BUTTERFLY SURVEY)

Introduction

There are 40 acres of land in which there are wide variety of plants, animals, birds, butterflies, etc. The bio-diversity of our college is so wide that we need an in depth survey to identify the varieties. For that we had a nature lover and social worker Prof. M Krishnan Nambsothiri Sir, a former professor of our college and we had identified 60 varieties of trees and also, we had planted the name board for these trees.
